I'm writing concerning the anti-abortion advertisements.

I believe the anti-abortion advertisements (right to life) should be aired, no matter how graphic they are!

Dear FCC:

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

I am writing in regards to the protest of the Pro-Life Commericals.

Why not? If I understand the Pro-Abortion side, they say that it's only another medical procedure. I can't tell you how many times I have sat down to dinner only to have the News show the insides of someone to let us know about some new medical procedure. Shouldn't we all know about this medical procedure and what it does?

If there is nothing wrong with this procedure, then what are they afraid of?

Sincerely,

Brenda Coffman

FCC - MAIL ROOM

Dear FCC:

This letter is to register my belief that broadcasters should not be the ones to decide whether political advertisements should be restricted due to indecency.

Standards for this decision should be pre-determined by the FCC.

Sincerely,

Steve Hays

Dear Sir,

I understand that you are open for public comment about restricting to late night hours ads which you deem indecent.

The problem is who is deeming them indecent. Declaring that the viewing of the truth about abortion is indecent is hypocritical unless you also declare to be indecent TV news about wars and crimes, and documentaries that show the gory truths of life, and day time soap operas. In fact, ads for abortion are highly indecent to me, insulting and angering me, since they are promoting the murder of babies, human beings.

If you declare that some political candidate or pro-life organization cannot show on prime time the truth of what abortion does to the baby or mother, then you need to hold the same standard for pro-abortionists. Leave those decisions to the local community, please.

You have a big job with a lot of pressure from various groups. I thank you ahead of time for sticking to what is right, despite the pressure.

Thank you,

Linda Rice

Mrs. Linda Rice

Mr. Alfred C. Silkes, Chairman
Federal Communications Commission
1919 M. St.
Washington, D.C. 20554

Dear Chairman Silkes,

I understand that there is controversy regarding the FCC allowing the networks to show abortion truths with actual pictures and happenings. This is a necessary reality that I believe America must be made aware of. 30,000,000 unborn babies have been killed since Roe V. Wade. Yet much of our country is in darkness and ignorance because of the "black out" of holocausts of the innocent, on T.V.

RECEIVED

U.S. DEPARTMENT OF COMMERCE

However, there is no news black out of filthy, degrading messages which continue to assault the youth of our country and also their families, with the messages of sexual freedom as their "right". The horrific violence is glorified as impressionable minds are soaking it all in while America is the leader in violent crime throughout the world.....There is substantive research which supports my statement as you must be well aware.

The public deserves to see the stages of human development in the pre-born baby's life via T.V. We all have the "right" to see and know the facts about what abortion is, the brutal killing of a helpless human life,--not a "glob of tissue" Images of helpless babies within the womb may restore America to sanity. The silent scream of the innocent baby within the womb needs and deserves to be seen in all fairness and balance in T.V. programing and spots. I thoroughly encourage you and the FCC to allow the abortion story and its truths to be viewed and let the truth speak to the minds and hearts of Americans. Fairness and balance is so totally lacking by the media that the moral swampland it is now showing is destroying our society. There is such potential for good, but the bad is definitely in control.

Thank you for your time and consideration for my plea for fairness and balance to request abortion and its realities be allowed T.V. viewers. It indeed is the FCC's moral obligation to America.

Sincerely,

Anita J. Holten
